Greetings from the family and staff at Davison Orchards.

It is with pleasure that we donate to Venture Training today, the sum of 1662.00 in cash. This money was collected through-out the farm in our loose change jars for the months of July and August 2021. We decided as a team to donate this money to non- profit organizations in our community that make a difference. Venture training certainly serves the community and adults with developmental disabilities giving them purpose and meaningful work to enrich their day to day lives.

Thanks for your work and dedication, it is an honor to donate to you today.

Sincerely,

Tamra Davison  
On behalf of the Davison Family and staff.
